It is not looking good for this trip next week. We may need to switch gears to Niagara Falls next week. I will know by noon. Attached are the Site Inspection Report and QAPP. If we were to change plans, we would be driving. Driving Monday to the site and back Friday back to NJ. Three days of surveying the buildings is a definite. If by any chance we can put together a minor QAPP for soil sampling that is recommended, we will.

I just sent TDD to Mark Oldand for processing (draft attached). It may be a verbal but I wanted to give you a heads up. We won't be performing radon sampling. That will be done separately and we can discuss those specifics as the week goes (We need to know how many canisters and availability of radon specialist to drop off and pick up). I am so sorry for this last minute changes. I am looking into hotels now.

Good Morning:

I am not sure if you were able to get in touch with Pre-Remedial Weston but attached is a soil sampling QAPP for CRU Site. I have no word from management on access. I am going to take a walk over to them now.

Regards,

Eric
